The Ready Family Soap Maker
LEWIS' 98° LYE

— POWDERED AND PERFUMED —

PATENTED

The strongest and purest made. Unlike other Lyes, it is freely powdered and packed in a tin, having the salt completely out and the other constituents in perfect suspended condition.

With one cup of Lewis' Lye, 1/2 lb. of glass, grease or tallow and 2 1/2 pints of cold water, following directions on wrapper, this best powdered lye soap can be made in twenty minutes.

The process of saponification with this article is so easy that almost any one can make it. In fact boiling is not required.

In the laundry and kitchen, for softening water, scouring dirt, cleaning glass, stoves, removing milk cans, stains, but-
tles, disinfecting sinks, closets, toilet paper, etc.

It is more fragrant than Lyeless Lye, is almost indispensable for cleaning and brightening sinks, wash-tubs, marble, toilet, wash-bowls and whitening floors with lime lye.

For use in the hospital, where a strong cleansing disinfectant is required.

Use this Lye for washing yarn and plants, killing insects, lawns, etc., and disinfecting roofs and gutters.

In the factory, laundry and machine shops, for dissolving grease and softening machinery (1 lb. in the best and most economical).

For cleaning, by washing barrels, tanks, etc.
